Martin Josipovic

Software Engineer @Generative AI | Computer Vision | ML/Deep Learning | OCR | STT/TTS | AI Chatbot | Conversational AI | Web Development

Warsaw, Mazowieckie, Poland

Summary

I am a software developer with a passion for creating innovative and cutting-edge solutions using artificial intelligence.

I have over 10 years of experience in various domains such as generative AI, computer vision, ML/deep learning, OCR, STT/TTS, AI chatbot, conversational AI, and web development.

I have also worked on blockchain projects using Solidity, Solana, Rust, Ethereum, Uniswap, and PancakeSwap.

I am proficient in integrating crypto wallets and developing user-friendly web applications using ReactJS, Redux, React Native, Next.js, Gatsby.js, and Ruby on Rails.

I am also familiar with cloud hosting platforms such as AWS, Google Cloud, Azure, and Firebase, and I follow the best practices of MV* architecture, test-driven development, and DevOps/CI/CD/Docker.

I am always eager to learn new skills and technologies, and I enjoy collaborating with other developers and clients to deliver high-quality products and services.
